MAINE BULLETIN NO. ME450-3-14

SUBJECT: TCH – Section I – Reference File of the Field Office Technical Guide

Purpose: To announce the revisions and changes in documents located in eFOTG under a new location in **Section I – F. Legislation.**

Expiration Date: January, 2004

As part of NRCS's electronic government initiative, we are replacing where possible paper versions of documents in the Reference File with digital documents or websites. This action has major benefits including making information more readily available to the public including Technical Service Providers and reducing the NRCS file cabinets needed to store paper documents. This is one of several bulletins that will be issued to fully implement this goal. Below find a list of documents that have been replaced with digital documents or websites or canceled and should be removed and destroyed. If the document is followed by the term "was paper copy", please remove and destroy the paper copy from the Reference File. It is not NRCS's policy to require the printing and filing of these "word documents".
